

# Delaware

---

**EPA found that power plants and industrial boilers and turbines in DE significantly contribute to ozone nonattainment problems in the following petitioning states:**

Connecticut and New York

**Number and kinds of facilities affected:** 7 power plants and 2 industrial facilities need to reduce emissions of nitrogen oxides under this action.

## **Nitrogen Oxide Emissions from Large Utility and Industrial Boilers/Turbines:**

<i><u>NOx emissions</u></i>	<i><u>NOx emissions remaining after EPA action</u></i>	<i><u>NOx emissions reduced</u></i>
6,413 tons	5,478 tons	936 tons (15%)

## **Additional Data**

**Number of counties in the state designated nonattainment for the 1-hour national ozone standard: 2**

**Did the state file a petition of its own?** Yes. EPA is evaluating this petition and will act on it in the near future.

# District of Columbia

---

**EPA found that power plants and industrial boilers and turbines in DC significantly contribute to ozone nonattainment in the following petitioning states:**

Connecticut and New York

**Number and kinds of facilities affected:** 1 power plant and 2 heating plants will need to reduce emissions of NO<sub>x</sub> as a result of this action.

## **Nitrogen Oxide Emissions from Large Utility and Industrial Boilers/Turbines:**

### NO<sub>x</sub> Emissions

47 tons

### NO<sub>x</sub> emissions remaining after EPA action

\*\*

### NO<sub>x</sub> emissions reduced

The small number of facilities and the NO<sub>x</sub> trading program lead the computer model to allow for growth in NO<sub>x</sub> emissions in DC

## **Additional Data**

**Number of counties in the state failing to meet the 1-hour national ozone standard:**

Entire district

**Did the state file a section 126 petition of its own?** Yes. EPA is evaluating this petition and will act on it in the near future.

**EPA finds that power plants and industrial boilers and turbines in this state significantly contribute to ozone nonattainment in the following petitioning states:**

Connecticut and New York

**Number and kinds of facilities affected:** 51 power plants and 21 industrial facilities (including asphalt, chemical and oil companies) will need to reduce emissions of NOx as a result of this action.

## **Nitrogen Oxide Emissions from Large Utility and Industrial Boilers/Turbines:**

<i><u>NOx emissions</u></i>	<i><u>NOx emissions remaining after EPA action</u></i>	<i><u>NOx emissions reduced</u></i>
131,228 tons	50,899 tons	80,329 tons (61%)

## **Additional Data**

**Number of counties in the state failing to meet the 1-hour national ozone standard: 13**

**Did the state file a section 126 petition of its own?** Yes, EPA is approving the petition, finding that North Carolina, Ohio, Virginia and West Virginia significantly contribute to Pennsylvania's ozone nonattainment problems.

# PENNSYLVANIA
